In addition to selling your books assiduously online, there are several other strategies that can make it easier to promote more books.

One is to offer one thing away free of charge with your e book, reminiscent of a worthwhile bonus item. Or bundle a number of ebooks under one value, which lowers the price for each e book if they were bought separately.

An efficient approach for determining a value is to ship out a survey to your present customers. If these customers have already bought an e-book from you, ask for their opinion in terms of price. Do that by creating a sales web page for the brand new ebook, but don't include a worth on that page. Instead, add quite a few hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other strategy is to check out prices by creating a number of duplicate sales pages with completely different prices on each page. Be certain your gross sales copy is precisely the same on

each web page, and contains your promoting-handle sentence. Then figure out for every web page the conversion ratio between visitors to your site and gross sales of your book. This will tell you what your optimum worth is.

Finally, for those who've written a guide that solves a drawback or presents a brand new technique, your e book will herald both traffic and profits. So you should definitely write that selling-handle sentence that sums up what downside your e book solves and what the benefits of your 2106 ebook will be to the customers who buy it.
