The key that unlocks the gross sales potential of your book is to discover a single sentence that turns into your promoting handle. Besides selling your books assiduously on-line, there are several other strategies that can allow you to promote more books.

One is to give one thing away free of charge together with your ebook, such as a precious bonus item. Or bundle several ebooks under one worth, which lowers the worth for each e book if they were sold separately.

An effective method for determining a worth is to send out a survey to your present customers. If these clients have already purchased an ebook from you, ask for their opinion when it comes to price. Do this by making a gross sales page for the new e-book, but do not embrace a price on that page. As an alternative, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to check out costs by making a number of duplicate gross sales pages with totally different costs on each page. Make certain your sales copy is strictly the similar on each

web page, and contains your promoting-deal with sentence. Then work out for every web page the conversion ratio between guests to your website and gross sales of your book. This will inform you what your optimum worth is.

In the end, if you happen to've written a book that solves a drawback or presents a new method, your ebook will usher in both traffic and profits.
