An effective approach for determining a price is to ship out a survey to your present customers. If these clients have already purchased an e book from you, ask for his or her opinion when it comes to price. Do that by creating a gross sales web page for the brand new ebook, but don't embody a value on that page. As an alternative, add a number of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other strategy is to test out prices by creating a number of duplicate gross sales pages with completely different costs on each page. Be certain that your sales copy is strictly the identical

on every web page, and includes your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your web site and gross sales of your book. It will tell you what your optimum worth is.

Ultimately, if you happen to've written a book that solves a problem or presents a new method, your e-book will bring in each traffic and profits.
